

Sunburst Technique

- (4) strips of Designer Series Paper cut at 1-1/2" x 4"
 - Note: Really...any size of rectangles will work...experiment! 😊
- Scrap piece of paper/cardstock 2-1/2" x 5"

Cut DSP into triangle pieces – cutting from top right to lower left. This is important to orient your paper if it has a directional pattern to it. Otherwise, it will be upside down.
